INFO:

TECNICA AVVITATA (SCREW-RETAINED TECHNIQUE)
- NO ROT: Singola (Single Abutment)
- ROT: Ponti avvitati (Implant Bridge)
- ZIRCONIA/PMMA: **SLY SYSTEM**

TECNICA INCOLLAGGIO (CEMENTED TECHNIQUE)
- **LINK-IN SYSTEM**
- **V4 SYSTEM**

1 - la connessione singola prevede il FILETTO ESTRATTIVO (single abutment also available with extractive thread)

2 - la connessione singola non realizzata da premilled potrebbe essere diversa dall'originale (single abutment without premilled manufacturing may differ from the original)

3 - per la connessione non è disponibile la vite compatibile (compatible screw is not available for this connection)

4 - la connessione singola è disponibile solo in Ti gr5 (single abutment only available in Ti gr5)

5 - per la connessione è disponibile anche lo scan abutment One Shot (for this connection it's also available the One Shot scan abutment)

6 - per la connessione singola è disponibile anche la produzione in MBase Tech (for single abutment connection is also available the production with MBase Tech)

7 - L'ingaggio del cacciavite è diverso dall'originale (The screwdriver engagement is different from the original system)

8 - Per la connessione è disponibile anche lo scan abutment Scan Reply (for this connection it's also available the Scan Reply scan abutment)
